EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 32-36 directed to inventions non-elected without traverse (on March 30, 2006). *Accordingly*, claims 32-36 have been cancelled.

It is noted that claim 1 is generic and allowable. *Accordingly*, the restriction requirement as to the encompassed species is hereby withdrawn and claims 10-20, directed to the non-elected species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. *Thus*, claims 1-20 and 29-31 are allowed.

It is noted that claims 21-28 were canceled in the amendment filed March 8, 2006.

The following is an examiner's statement of reasons for allowance:

The prior art fails to show or suggest an organizer, as specifically called for in the claimed combination of claim 1, whereby at least one side of a compartment is open (see line 27) and a ledge is arranged at each end of the compartments (see lines 20-21) so that the ledge is "above a bottom of the compartment" (see line 31) to prevent objects in the compartments from

slipping out and so that objects can rest on the ledge and extend laterally outward (see line 29) through the open side.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
